Thoughtworks Q3 2022 Investor Presentation

Delivering extraordinary impact together

© 2022 Thoughtworks
Safe harbor and non-GAAP reconciliation

Forward-looking Statements. Some of the information contained in this presentation by Thoughtworks Holding, Inc. ("Thoughtworks" or the "Company") includes "forward-looking statements" within the meaning of the "safe harbor" provisions of the United States Private Securities Litigation Reform Act of 1995, as amended. Forward-looking statements include statements that are not historical facts and can be identified by terms such as: "believe," "anticipate," "plan," "intend," "estimate," "expect," "likely," "seek," "strive," "may," "could," "should," or "will" and similar references to future periods and the negative of such terms, but the absence of these words does not mean that a statement is not forward-looking. Examples of forward-looking statements that relate to our plans, projections, estimates and goals include, among others, statements we make regarding revenues and revenue growth, Adjusted EBITDA and Adjusted EBITDA Margin, Adjusted Diluted Earnings per Share ("Adjusted Diluted EPS"), and our beliefs that the demand market will continue to support the projected growth rates stated herein.

Forward-looking statements are neither historical facts nor assurances of future performance. Instead, they are based only on our current beliefs, expectations and assumptions regarding the future of our business, projections, anticipated events or trends, the economy and other future conditions. Because forward-looking statements relate to the future, they are subject to inherent uncertainties, risks and changes in circumstances that are difficult to predict and many of which are outside of our control. Our actual results and financial condition may differ materially from those indicated in the forward-looking statements. Therefore, you should not rely on any of these forward-looking statements. Important factors that could cause our actual results and financial condition to differ materially from those indicated in the forward-looking statements include, among others, the following: our ability to attract skilled talent; the effects of competition on the future business of Thoughtworks; uncertainty regarding the demand for and market utilization of our services; the ability to maintain or acquire new client relationships; general business and economic conditions including such conditions related to inflation and foreign currency exchange rates; and our ability to successfully execute our growth strategy and strategic plans. Additional information concerning these and other risks and uncertainties may be found in the "Risk Factors" section of Thoughtworks’ quarterly reports on Form 10-Q, our annual report on form 10-K, and other filings and reports that Thoughtworks may file from time to time with the SEC.

Any forward-looking statement made by us in this presentation is based only on information currently available to us and speaks only as of the date on which it is made. Except as required by law, Thoughtworks assumes no obligation to update any forward-looking statement, whether written or oral, that may be made from time to time, whether as a result of new information, future developments or otherwise.
Safe harbor and non-GAAP reconciliation

**Non-GAAP Financial Measures.** Certain financial metrics contained in this presentation, including among others, Adjusted Gross Profit, Adjusted Selling, General & Administrative expense, Adjusted Net Income, Adjusted Diluted EPS, Adjusted EBITDA, Adjusted EBITDA Margin, and Revenue Growth rates in constant currency, which exclude the effect of foreign currency rate fluctuations, are considered non-GAAP financial measures. We use these non-GAAP measures in conjunction with traditional GAAP measures to evaluate our financial performance. We believe that these non-GAAP measures provide our management and investors consistency and comparability with our past financial performance and facilitate period-to-period comparisons of our operations. The non-GAAP financial measures provided should not be considered as a substitute for the comparable measures of financial performance prepared in accordance with GAAP. For more information regarding the non-GAAP financial measures discussed in this presentation, including a reconciliation of these non-GAAP measures to their corresponding GAAP measures, please see the Appendix to this presentation. For definitions of these non-GAAP measures, please see our press release for the most recent quarterly or annual results posted to the Investor Relations page of our website.

Some non-GAAP measures related to our financial outlook included in this presentation, our press release and the associated webcast were not reconciled to the comparable GAAP financial measures because the GAAP measures are not assessable on a forward-looking basis. We are unable to reconcile these forward-looking non-GAAP financial measures to the most directly comparable GAAP measures without unreasonable efforts because we are currently unable to predict with a reasonable degree of certainty the type and extent of certain items that would be expected to impact GAAP measures for these periods but would not impact the non-GAAP measures. Such items may include stock-based compensation, acquisition costs, income tax effects of adjustments and other items. The unavailable information could have a significant impact on our GAAP financial results. Based on the foregoing, we believe that providing estimates of the amounts that would be required to reconcile the range of the non-GAAP measures to forecasted GAAP measures would imply a degree of precision that would be confusing or misleading to investors for the reasons identified above.

**Industry & Market Data.** The market data, industry forecasts and other statistical information used in this presentation are based on third-party industry publications and surveys and internal Company sources. Industry forecasts are based on industry surveys and the preparer’s expertise in the industry, and there can be no assurance that any of the industry forecasts will be achieved. We believe these data are reliable, but we have not independently verified the accuracy of this information nor have we ascertained the underlying assumptions relied upon in those sources, and we cannot assure you of the accuracy or completeness of such information contained in this presentation. While we are not aware of any misstatements regarding our market, industry or similar data presented herein, such data, including industry forecasts and projections, involve risks and uncertainties and are subject to change based on various factors.

Valued by our clients

- Our ability to digitally transform global enterprises at scale by applying strategic consulting and cutting-edge technologies
- Our deep agile and technical expertise and thought leadership
- Our poly-skilled, transformational and global talent
- Our global distributed agile delivery with a strong local presence
- Our award-winning and cultivating culture
Our core services

End-to-end digital partner combining strategy, software engineering, design and organizational transformation

Enterprise Modernization, Platforms and Cloud
Modernize complex IT estates, operations, platforms, development and delivery practices to rapidly unleash business value

Customer Experience, Product and Design
Accelerate value creation through extraordinary digital products and customer experiences powered by integrated technology and design

Data and AI
Enable data-driven intelligent products and business insights with pragmatic data strategies, governance, engineering, predictive AI, automation and ML capabilities

Digital Transformation and Operations
Provide organizations with executable digital strategies, frictionless operating models and transformation services
Thoughtworks’ approach delivers value fast

We deliver extraordinary impact for our clients via a collaborative and co-creative process that utilizes a thin slice approach to deliver value with incremental change on an accelerated timeline.

Footnotes

1. Unaudited financial information for 2014 through 2018. 2014 through 2018 revenues were calculated according to a prior accounting standard, ASC 605, and may not be directly comparable to our 2019 to 2022 revenues, which use ASC 606. Our adoption of ASC 606 as of January 1, 2019 did not materially impact our revenues.
5. Thoughtworks operated in 17 countries as of September 30, 2022, We formally established operations in Vietnam as of October 10, 2022.
6. Employee concentration as of September 30, 2022
7. As of September 30, 2022
8. For the three months ended September 30, 2022
9. Reported YoY percentage growth rates calculated by comparison to prior year’s corresponding period
10. Revenue Growth Rate at Constant Currency is calculated by translating the current period revenues into U.S. dollars at the weighted average exchange rates of the prior period of comparison
11. Adjusted EBITDA, and certain other measures in this deck, are Non-GAAP financial measures. For more information regarding the non-GAAP financial measures discussed in this presentation including a reconciliation of these non-GAAP measures to their corresponding GAAP measures, please see the Appendix to this presentation. For definitions of these non-GAAP measures, please see our press release for the most recent quarter-ended posted to the Investor Relations page of our website
12. Represents contracts with customers by contracted currency, or by sales location.
13. Represents contracts with customers by contracted currency, or by sales location. Major contracted currencies represent currencies that are 10% or more of total revenues.
16. Source: Gartner® press release, Gartner Says 78% of CFOs Will Increase or Maintain Enterprise Digital Investments Through 2023 Even if Inflation Persists. May 25, 2022. </table>

(a) Reflects costs for certain professional fees and retention wage expenses related to certain acquisitions.
(b) Adjusts for certain transaction expenses, non-recurring legal expenses, and one-time professional fees.
(c) Adjusts for the additional compensation expense related to the tender offer completed in the first quarter of 2021.
(d) Adjusts for business rationalization revenues and costs related to closing Thoughtworks Studios, which ceased operations as of December 31, 2020.
(e) Adjusts for IPO-readiness costs and expenses that do not qualify as equity issuance costs.
(f) Adjusts for employer payroll related expense on employee equity incentive plan as these expenses are tied to the exercise or vesting of underlying equity awards and the price of our common stock at the time of vesting or exercise. As a result, these expenses may vary in any particular period independent of the financial and operating performance of our business.
(g) Adjusts for certain tax related expenses related to final tax assessments from closing operations in Uganda, which was completely shut down in 2015.
## Reconciliation of Non-GAAP financial measures

(in thousands, except percentages, number of shares and earnings per share)
